STRENGTHS

(see above)

EXPERIENCE

Help & Sales Desk Technician – MSU IT Services　　　January 2026 – Present
- Provided university help desk support, resolving hardware and software for students and faculty.
- Drove sales and service efficiency by recommending tailored tech solutions to clients and managing POS transactions alongside internal and external warranty repair workflows.

Tech Lead & Full-Stack Developer – FEAST Solutions LLC　　　September 2024 – Present
- Created a Dart Flutter app that stored food items by scanning barcodes and generated AI recipes
- Created a backend Python server that controlled login and API calls
- Managed Apple TestFlight and organized GitHub tasks for team programming workflows
- Led the programming team and collaborated with design and management

Information Technology Intern – Walbridge　　　May 2025 – August 2025
- Decommissioned retired laptops and staged 200+ devices by using Ivanti to install essential software, configure authentication, and remotely push security patches and handled shipments
- Coordinated with clients to schedule remote sessions via Screen Connect to resolve various PC and technical support issues
- Tracked laptop setup progress with custom Excel sheets and Track-It!, and communicated updates to team leads using Teams and Outlook

Camp Counselor – Livonia Parks and Recreation　　　March 2024 – December 2024
- Supervised and ensured the safety and well-being of children aged 5-12
- Planned, organized, and led age-appropriate activities

EXTRACURRICULARS

Member – MSU Geography Club　　　January 2025 – Present

Member – Imagine Software Club　　　September 2024 – Present

Prototype Programmer – Spartasoft Studio　　　September 2024 – February 2025

PROJECTS

Oszust OS Music Tools | Python Software　　　January 2023 – Present
- Developed a Python application featuring music search with lyrics, music and YouTube downloaders, metadata management, explicit lyrics checker, and a music player
